

# HOT SHOT'S

## SECRET

### MORE POWER for your diesel engine or your MONEY BACK!

### FIXES DIESEL INJECTORS

# \$49.95

### AVAILABLE NOW!

Modern diesel engines run at higher temperatures and pressures. Engine oils oxidize, leaving behind corrosive deposits and varnishes. This slows down the turbo and the injectors. Hot Shot's Secret cleans these deposits and gives you more power.

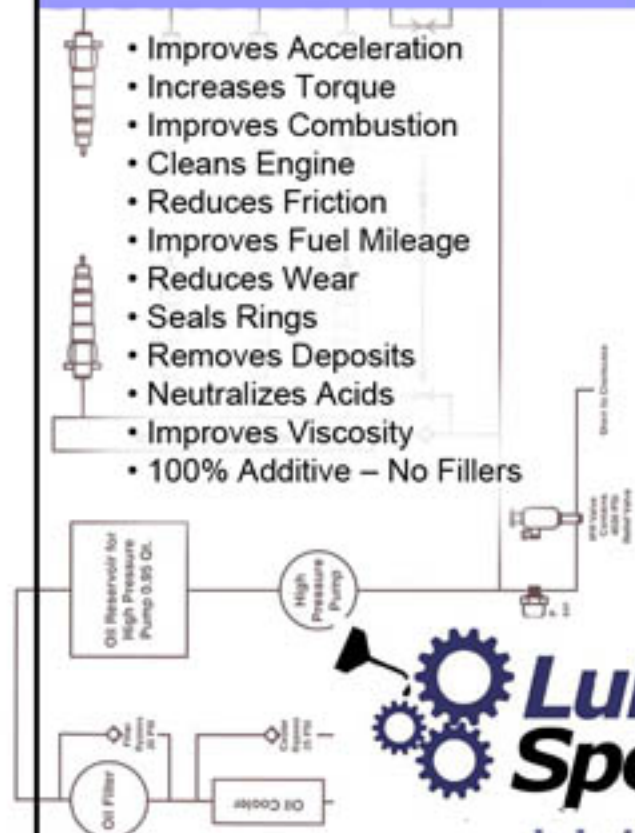

This bottle treats a standard 15 quart system.

## TRIPLE THE LIFE OF YOUR FUEL INJECTORS!

"Hey, I am not an engineer, chemist, or salesman...all I know is that the Ford dealer said I had to replace several failing injectors out of warranty at 105,000 miles. Used the HSS additive and it fixed the problem. If you have ever had to pay for even 1 injector, I think even at \$200 for a 2 qt bottle would be a great deal. I was not sure before I used it, now I suggest to anyone with the 6.0 that has stiction symptoms. And Chris, a great big thanks to you."

~ Michael W Berg, Boise, ID
